

Snowmaking & Slope Maintenance Dirt Biking

**April 5<sup>th</sup>**

***Rabbit Valley Area***

***Meet at the trailhead ready to ride by 1:00 pm***

Join us for an afternoon of dirt biking. This will be an intermediate trail ride. We may ride Trail #2, West Rim Trail, and surrounding double and single track trails in the Rabbit Valley Area. Depending on interest and rider skill level, we will decide which trails to ride.

It is highly recommended to have all your safety gear, current Colorado and Utah OHV stickers, your bike maintained for desert conditions, any necessary tools, and water/snacks. We will be out for approximately two to three hours and the areas we will ride are remote and exposed, please plan accordingly and responsibly.

See you there!
